Dear David,

I'm writing in response to your inquiry about the dumpster at the Acton Congregational Church.

Our old dumpster was located on the property that belongs to the house at 20 Concord Rd, so with the sale of that property we had to move our dumpster to a new location.

After considering all possible locations for safety and convenience, we settled on the current spot at the top of the parking lot. Wanting to screen the dumpster, it was decided that creating a moveable enclosure would be best.

The job was taken on by a prospective Eagle Scout who needed a project to complete his work toward his Eagle Scout badge. The current enclosure is the result of his work. Aesthetically it is far from an ideal solution; we have been looking at painting it a darker color. We have no current plans to move it, so it would have to be considered a structure under your definition.

We do have a question about whether or not bylaws require that the dumpster have an enclosure. By itself, the dumpster is definitely smaller and less obtrusive.

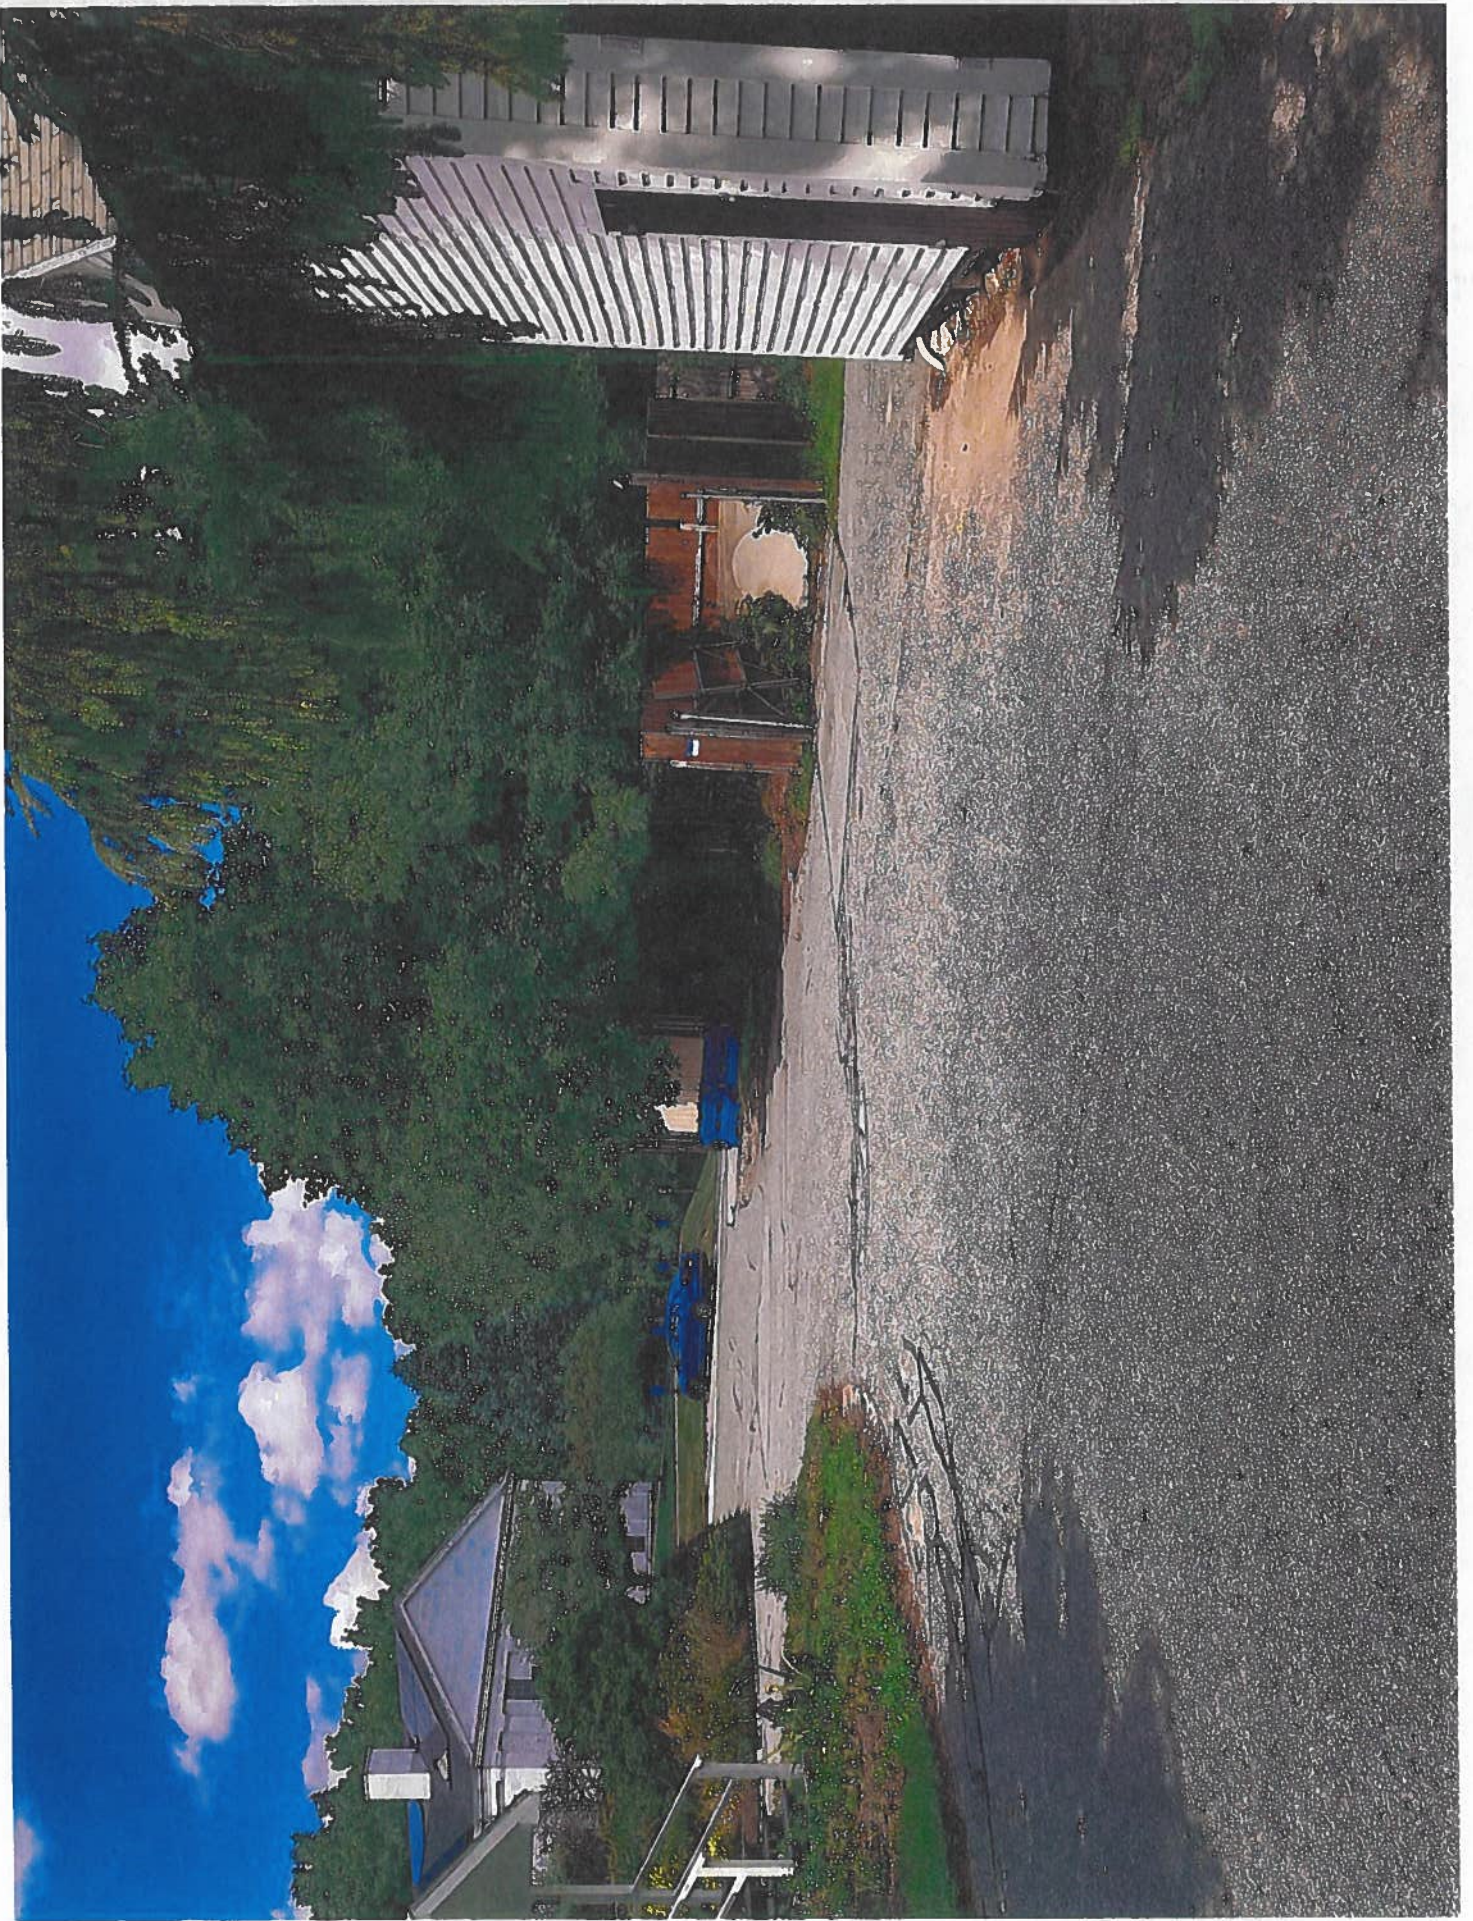

We are certainly willing to work with the HDC to arrive a solution. Please let us know about the necessity of an enclosure and what the next steps should be.

Thank you,

Sherry Ryder for the Board of Trustees, Acton Congregational Church
