Ms. Katie Green  
Chairman, Board of Selectmen  
472 Main Street  
Acton, MA 01720

Dear Chairman Green,

I write to you today in support of the Kelly's Corner Working Group's recommendations for improvements in the area of Kelly's Corner. I believe these improvements will increase safety for motorists, bicyclists and pedestrians.

Some of these recommendations are to reduce the total number of driveways in the area, raised medians, designated turn lanes, Charter Road signal, additional sidewalks, Rapid Flashing Beacons at crosswalks, designated bike lanes and buffers between the sidewalks and street edge.

Most of these recommendations appear to be current best practices at the state and federal level for road design.

Respectfully Submitted,

---

Chief of Police
